

## Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact [support@jstor.org](mailto:support@jstor.org).

## THE CONTROL OF HUNGER IN HEALTH AND DISEASE

By ANTON JULIUS CARLSON, *Professor of Physiology at the University of Chicago.*

A summary of the work of the stomach, with special reference to hunger and appetite, carried on at the Hull Physiological Laboratory, at the University of Chicago during the last four years. 219 pages. Price \$2.00 net.

University of Chicago Press, Chicago, Ill.

---

## STATE SANITATION

By GEORGE CHANDLER WHIPPLE, *Professor of Sanitary Engineering at Harvard University. Member of the Public Health Council, Massachusetts State Department of Health.*

The primary object of this book is to set forth the past work of the Massachusetts State Board of Health, so that it may be known by the people of the present generation. 377 pages.

The Harvard University Press, Cambridge, Mass.

---

## PRINCIPLES OF OCEAN TRANSPORTATION

By EMORY R. JOHNSON, PH.D., Sc.D., *Professor of Transportation and Commerce of the University of Pennsylvania*, and GROVER C. HUEBNER, PH.D., *Assistant Professor of Transportation and Commerce at the University of Pennsylvania.*

This book embodies all the principal changes that have recently occurred in methods of ocean transportation throughout the world. Illustrated with half-tones, maps and diagrams. 513 pages.

D. Appleton and Company, New York City

---

## DESCRIPTIVE MINERALOGY

By WILLIAM SHIERLEY BAYLEY, *Professor of Geology at the University of Illinois*

A text-book for college classes, designed to give the student a comprehensive view of modern mineralogy, rather than a detailed knowledge of many minerals. 268 illustrations. 542 pages.

D. Appleton and Company, New York City

---

## INORGANIC CHEMISTRY

By ALEXANDER SMITH, *Professor of Chemistry in Columbia University.*

A thorough treatise of inorganic chemistry for students beginning this study in college, university or professional schools. Third edition. 925 pages.

The Century Co., New York City

---

## SOIL PHYSICS AND MANAGEMENT

By J. G. MOSTER, B.S., *Professor of Soil Physics, University of Illinois*, and A. F. GUSTAFSON, M.S., *Assistant Professor of Soil Physics, University of Illinois.*

The publication of this book fulfils three purposes: First, a text-book for agricultural students; second, a reference book for the practical farmer; and, third, an aid to the landowner who desires information in the management of his land. 202 illustrations. 442 pages.

J. B. Lippincott and Company, Philadelphia, Pa.

---

## FIELD BOOK OF INSECTS

By FRANK E. LUTZ, *Associate Curator, Department of Invertebrate Zoology, American Museum of Natural History*

A popular treatise of the more common insects, with special reference to those of the Northeastern United States. 800 illustrations. 409 pages. Price, \$2.50 net.

J. P. Putnam's Sons, New York City

---

## A TEXT-BOOK OF PRECIOUS STONES

By FRANK B. WADE, B.S., *Head of the Department of Chemistry, Shortridge High School, Indianapolis, Ind.*

This book presents, in as natural an order as possible, the fundamental principles and methods in use for identifying precious stones. 318 pages. Price, \$2.00 net.

J. P. Putnam's Sons, New York

---

## COMPARATIVE ANATOMY OF VERTEBRATES

By J. S. KINGSLEY, *Professor of Zoology at the University of Illinois*

A text-book of comparative anatomy, laying special emphasis on the embryological side of the study. Second edition. 406 illustrations. 449 pages. Price, \$2.00 net.

P. Blakiston's Son and Company, Philadelphia, Pa.

---

## TOPOGRAPHY AND STRATEGY IN THE WAR

By DOUGLAS WILSON JOHNSON, *Associate Professor of Physiology, Columbia University.*

This book treats the relationship between inanimate nature and the science of war and gives a picture of the different war fronts in order that the military campaigns of the war may be followed with greater ease. 211 pages. \$1.75 net.

Henry Holt & Co., New York

---

## GENERAL ZOOLOGY

By A. S. PEARSE, *Associate Professor in the University of Wisconsin.*

This book has been written to be read by students of eighteen to twenty years of age. With this idea in view both the illustrations and text have been prepared more in the style of a natural history than of an anatomy. 366 pages.

Henry Holt & Co., New York

---

## HISTORY OF MEDICINE

By FIELDING H. GARRISON, *Principal Assistant Librarian, Surgeon General's Office, Washington, D. C.*

This volume has been written with a definite intention of stimulating the student to do his own thinking and research, by interesting him in the subject from the start. 905 pages. Cloth \$6.50 net.

W. B. Saunders Co., Philadelphia, Pa.

---

## A SHORT HISTORY OF SCIENCE

By W. T. SEDGWICK and H. W. TYLER of the *Massachusetts Institute of Technology.*

This volume seeks to furnish the student and the general reader with a concise account of the origin of our scientific knowledge and scientific methods. 474 pages. Price \$2.50 net.

The Macmillan Co., New York

---

## EVERYMAN'S CHEMISTRY

By ELLWOOD HENDRICK, New York City.

This book aims to give to the average man a general realization of the tremendous importance of chemistry and its application in actual life. 373 pages.

Harper & Brothers, New York

## A Handbook of American Private Schools

The 2nd Edition revised and enlarged of the Handbook of the Best Private Schools.

Among the new features are a Complete List of Private Secondary Schools; new Educational Directories; a List of Secondary School Periodicals.

New Introductory Chapters, — Measuring Educational Results, the Year in Education; Review of Recent Educational Literature, etc., by Prof. Arthur O. Norton of Wellesley College, Prof. Clayton C. Kohl of New York University and others.

640 pages, round corners, crimson cloth, gold stamped, \$2.50

## A Handbook of New England

Descriptive of Town and Country along the Routes of Automobile Travel, with Introductory Chapters.

768 pages, round corners, crimson silk cloth, gold stamped, \$2.50

**PORTER E. SARGENT**

50 Congress St., Boston, Mass.

# SCIENCE

**A WEEKLY JOURNAL DEVOTED TO THE ADVANCEMENT OF SCIENCE**

FRIDAY, MAY 3, 1918

A Chemical Study of Enzyme Action, Dr. K. George Falk.  
The Conservation of Wheat, Dr. Harry Snyder.

Scientific Events:

Theodore Caldwell Janeway; Medical Terminology; Lectures on Public Health; Research Grants of the American Association for the Advancement of Science; The National Academy of Sciences.

Scientific Notes and News

University and Educational News

Discussion and Correspondence:

Note on a Reverse Concentration Cell, Professor Fernando Sanford. Hering's Contributions to Physiological Optics, Dr. Carl Hering. Reform of the World's Calendar, T. G. Dabney.

Scientific Books:

Stejneger and Barbour's Check-list of North American Amphibians, Professor Alexander G. Ruthven.

Special Articles:

Identity of Atomic Weight among Different Elements, Dr. Gerald L. Wendt.

The American Association for the Advancement of Science:

Minutes of the Committee on Policy, Dr. L. O. Howard.  
Section M—Agriculture, Dr. E. W. Allen.

Annual Subscription \$5.00.

[FRIDAY, May 10, 1918]

The Value and Service of Zoological Science:

Value to the Individual, Professor Harry Beal Torrey.  
Utilitarian Values, Professor M. E. Guyer.

Scientific Events:

The Lake Laboratory of the Ohio State University; Antityphoid Inoculation; The Silliman Lectures; The Baltimore Meeting of the American Association for the Advancement of Science.

Scientific Notes and News

University and Educational News

Discussion and Correspondence:

Proposed Magnetic and Allied Observations during Total Solar Eclipse of June 8, 1918, Dr. L. A. Bauer. Progressive Deglaciation and the Amelioration of Climate, Marsden Manson. Translations made accessible, J. N. Stephenson. A New Calendar, W. J. Spillman. Drawings on Lantern Slides, J. R. Benton.

Scientific Books:

Lowie on Culture and Ethnology, Professor Albert Ernest Jenks.

Special Articles:

Mass Mutation in Zea Mays, Professor Hugo de Vries.

The American Association for the Advancement of Science:

Section E—Geology and Geography.

# SCHOOL AND SOCIETY

**A weekly journal covering the field of education in relation to the problems of American democracy**

**Edited by J. McKEEN CATTELL**

SATURDAY, APRIL 20, 1918

The Most Common Faults of Beginning High-school Teachers, Stephen S. Colvin  
Social and Educational Standards in a Democracy at War, David Rosenstein

#### Educational Events:

Educational Commissions of the British Government; War Credits and Certificates at Harvard University; New Teachers and their Preparation in New Jersey; Educational Work for American Soldiers in France.

#### Educational Notes and News

#### Discussion and Correspondence:

Standards of Evaluating School Subjects as revealed by College Graduates, M. Jay Flannery

#### Quotations:

The Federal Interest in Education

#### Books and Literature:

Survey of Garment-making Industries by the Cincinnati Chamber of Commerce, David Snedden. Educational Journals

#### Government Policies involving the Schools in War Time

#### Societies and Meetings:

The National Conference Committee on Standards of College and Secondary Schools, Frank W. Nicolson

SATURDAY, MAY 4, 1918

Report of the Committee on Academic Freedom and Academic Tenure of the American Association of University Professors  
Instruction for Teachers of Agriculture under the Smith-Hughes Vocational Education Law, G. M. Wilson

#### Spiritual Education and Efficiency, Clarence C. Church

#### Educational Events:

The War Service of Yale University; Declaration of Principles by Professors of German Birth; Officers Training Camps and the Colleges; Pittsburgh Accommodations for the National Education Association; Resolutions of the Commission on the National Emergency in Education

#### Educational Notes and News

#### Discussion and Correspondence:

A Strategic Retreat, Paul J. Kruse

#### Quotations:

Recent Educational Progress in India

#### Educational Research and Statistics:

Mentality in its Relation to Elimination from School, Herbert A. Toops, Rudolf Pintner

#### Societies and Meetings:

Schoolmen's Week at the University of Pennsylvania

SATURDAY, APRIL 27, 1918

The Wider Use of the School Plant, Lewis B. Avery  
Does the Study of Mathematics train the Mind Specifically or Universally? Robert E. Moritz

#### Educational Events:

The Enemies of Child Life; The University of Michigan; Courses for Reconstruction Aides at Reed College; Teachers' Houses; The Superintendency of the New York City Schools.

#### Educational Notes and News

#### Discussion and Correspondence:

Is the Modern School a Return or a Departure? Chas. W. Palmer.

#### Quotations:

Too Costly even for Carnegie.

#### Books and Literature:

Scott on Patriots in the Making, I. L. Kandel.

The Twelfth Annual Report of the Carnegie Foundation for the Advancement of Teaching.

Work of the Rockefeller Foundation.

#### Educational Research and Statistics:

Mentality in its Relation to Elimination from School, Herbert A. Toops, Rudolf Pintner.

SATURDAY, MAY 11, 1918

Athletics and the War Game, F. L. Kleeberger.

Once More Flexner's "A Modern School," Philip S. Blumberg.

#### Educational Events:

The Finances of Columbia University; War Work at the Massachusetts Institute of Technology; Applied Psychology at the Carnegie Institute of Technology; The Training of Drafted Men as Mechanics; The New York City Superintendency.

#### Educational Notes and News

#### Discussion and Correspondence

The Carnegie Foundation for the Advancement of Teaching, Joseph Jastrow. Bird Collections for Colleges and High Schools, Horace Gunthorp.

#### Quotations:

The New York City Schools.

#### Special Articles:

Comparative Statistics of Registration of Thirty Universities for 1916 and 1917, Huber William Hurt.

#### Societies and Meetings:

The Annual Conference of the English National Union of Teachers.

# ***R-S The Original Mechanically Operated Side by Side Valve Motor***

Time and again, during the past nine years we have demonstrated that the R-S Motor with its integral cams and gears of specially treated Vanadium Steel, its large cooling flanges, its long stroke, its mechanically operated Valves is the most reliable, flexible, powerful and durable Motor that stands the test of time. It triumphs over the worst road conditions and survives the most gruelling tests, yet remains fresh and sweet through it all—never taxed to its utmost, but always with plenty of power on which to draw.

We are the originators of the Mechanically Operated Side by Side Valve Motor and therefore eight years in advance of all others. The R-S is not an experiment at the expense of the rider.

With such a motor to start with is there any wonder that the other features of the R-S are in keeping with the recognized superiority of the R-S Motors.

Write for catalogue and dealer's proposition.

**READING, PA.**

# The Scientific Monthly

Entered as second-class matter October 1, 1916, at the post-office of Lancaster, Pennsylvania,  
under the Act of March 3, 1879

## CONTENTS OF THE APRIL NUMBER

Weather Controls over the Fighting in Mesopotamia, in Palestine and near the Suez Canal. Professor Robert deC. Ward.

A National Park Policy. Professor F. A. Waugh.

The Research Couplet: Research in Pure Science and Industrial Research. William Allen Hamor.

A New Situation in the Orient. Dr. Sudhindra Bose.

Language Reform and the Progress of English Peoples. Dr. Jos. V. Collins.

The Health of College Athletes. Professor C. E. Hammett.

The Habits of the Fishes of Inland Lakes. Professor A. S. Pearse.

The Work of Museums in War Time. Dr. Harlan I. Smith.

The Progress of Science:

Samuel Gibson Dixon; The Geography of the Italian Front; Aerial Photography and the War; Scientific Items.

## CONTENTS OF THE MAY NUMBER

Concerning the Mutation Theory. Professor T. H. Morgan.

The Application of Organized Knowledge to National Welfare. Dr. P. G. Nutting.

The Work of Museums in War Time. Dr. Harlan I. Smith.

The Alsace-Lorraine Question. Dr. C. C. Eckhardt.

Beekeeping and the War. Dr. E. F. Phillips.

Hog Cholera: Its Economic Importance and Prevention. Dr. R. R. Birch.

Does Crop Rotation Maintain the Fertility of the Soil? J. E. Greaves.

The Interrelations of Animals and Plants and Their Influence upon the Food Supply of Man. Professor Robert W. Hegner.

The Progress of Science:

The Armored Dinosaur; The Sulphur Situation in the United States; War Work of the U. S. Coast and Geodetic Survey; Reconstruction of Crippled Soldiers; Scientific Items.

## Models for Every Purpose

In laboratory, classroom or for special research work—backed by 65 years of optical experience. Combine every approved feature of mechanical design with the highest grade, precision optics.

Because of the demands made upon our resources for some of the government's most important military needs, we are unable to make microscope deliveries for the present. While proud to be of service in this world crisis, we shall expect to serve our other patrons even more efficiently than before, when the world is again at peace.

### Bausch & Lomb Optical Co.

550 St. Paul Street      Rochester, N. Y.

*Leading American Makers of Microscopes, Projection Apparatus (Balopticons), Photographic and Ophthalmic Lenses, Binoculars, Range Finders, Gun Sights, Search-light Reflectors and other High-Grade Optical Products.*

## W. Watson & Sons, Ltd.

BRITISH MADE

### STUDENTS MICROSCOPES

The "Praxis" Stand is the Student's model par excellence. Made throughout with the same accuracy

and finish as on Watson's highest priced Stands.

A few special points are:—Standardization so that additional movements may be fitted as required. Lever fine adjustment. Constructed of two solid castings and indestructible. All parts are slotted and sprung to compensate for wear.

Price for Stand only \$18.90.

Catalogue of Microscopes and Accessories for all purposes gratis on request from
